

CURRICULUM VITAE

PERSONAL DETAILS

Full Name	Samih Mahmood Al-Alawi
Nationality	Bahraini
Marital Status	Married
Languages	Speaking and writing Arabic and English
Address	House 2355, Road 4378, Block 743 Sanad , Kingdom of Bahrain
Contacts	Mob: 39636211 – Residence: 17625145
E-mail	salalalwi.bah@gmail.com

ACADEMIC QUALIFICATIONS

- Bachelor of Science degree in chemical engineering form University of Texas at Austin – USA
- Master of Business Administration (MBA) degree from University of Strathclyde, Glasgow, UK

➤ PROFESSIONAL QUALIFICATIONS

- “ Certified Integrated management System Consultant” Certificate by TUV Nord
- “Integrated Management System Internal Auditor Course (Quality *ISO 9001:2000*, *Environment ISO 14001:2004 & Occupational health & Safety OHSAS 18001:2007*” Certificate by TUV Middle East).
- The BCI (Business Continuity Institute) endorsed “Business Continuity Management Course”
- IRCA Certified “Information Management Systems Auditor/Lead auditor Course(*ISO 27001:2005*) by BSI
- Toastmaster International “ Competent Communicator” and “Competent Leader” Certificates
- Advanced Risk Management Course in Health & Safety
- Process Safety Management Course by EQE,USA
- Product stewardship and Responsible Care as per *RC 14001* workshop (Based on the Environment Management System *ISO 14001*)
- Supply Chain Security certificate *ISO 28000* standard content and auditing

KEY SKILLS

Technical and management :

Practitioner and provide Consultancy Services , Auditing and Training in the following fields:

- Hazop (hazards and Operability Studies) team leader and trainer
- Process Safety Management as per *OSHA 1910.119* standard
- Enterprise Risk management as per Coso framework, ISO 31000, and BS 31100 standards
- Management Systems Standards (PAS 99 , *ISO 9001:2000Qualtiy* , *ISO 14001:2004 Environment* & *OHSAS 18001:2007 Occupational health and safety Standards*, *ISO 27001: 2005 Information security Management Systems*)
- Responsible Care standard *RCMS* and *RC 14001*
- Business Continuity Management Standard *BS 25999*
- Project Management of construction of industrial plants
- Industrial Process , Operations, Maintenance, Procurement, and Engineering Disciplines of Petrochemical plants and refineries
- Leadership and Management
- Interpersonal and Self development skills
- Management of internal and external auditing of the ISO standards
- Industrial environmental protection and industrial safety
- Facilitation and training of industrial schemes and programs

WORK EXPERIENCE:

July 2013- till present: Training Manger at Bahrain society of engineers (BSE)

- Managing the training center operations and marketing
- Successfully developed the quality assurance of the training center from “Inadequate rating” to “ sufficient progress” in monitoring visit 25-5-2014 which reached to above satisfactory level of Bahrain quality assurance for education and training standard.

March 2012-june 2013: Elected and assigned as training director at the Bahrain society of engineers board of directors

Dec 2010 –June 2013:

- worked as Business Development Manager for Arsinals Engineering Design office.
- Worked as free lance consultant in the field of development of industrial and waste water treatment

Nov 2010 : Took early retirement from Gulf Petrochemical Industries Co

Feb 1980 till Dec 2011: Worked for Gulf Petrochemical Industries Company (GPIC) for 30 years in various positions. GPIC was established in year 1979 as a joint venture between the governments of Kuwait (PIC), Saudi Arabia (SABIC) and presently NOGA of Bahrain. It Utilizes Natural Gas of Bahrain to produce Ammonia (1200 MTPD) , Methanol (1200 MTPD) , Urea (1700 MTPD), and all the required utilities’ (desalination, demineralization ,

Nitrogen , Instrument air, hypochlorite , potable water unit etc...) and operates this petrochemical complex in Sitra Bahrain. The details of my work experience are as follows:

2007-till Oct 2010 : Worked as Management Systems Superintendent responsible of implementation , maintenance , and internal auditing of GPIC's Management Systems . Responsible to manage the implementation and auditing of following management systems :Quality ISO 9001, Environment ISO 14001, Occupational health and safety OHSAS 18001, PAS 99 , and ISO 27001 Information Security and acted as the company representative for coordinating the external audit certification of the standards.
Preparing Training needs , arranging necessary training and Training of internal auditors to be qualified as internal auditing function

1990 – 2007 :

- Worked as Chief Engineer managing the Engineering Section in Technical Services Department. My responsibilities were to manage the engineering section responsible for study ,preparation of engineering designs documents , and procurement of required materials for all GPIC's plants modifications and capital projects. Responsible to manage the engineering section covering the project , process, instrument, electrical ,and civil disciplines serving the ammonia, methanol, urea, utilities plants and all the civil activities. Managed design and procurement activities of the capital projects and modifications jobs which involved civil constructions and installation of various instrumentation, mechanical, and electrical projects . The responsibilities included providing safe designs and prevention of environmental pollution.

From 1990-1997 managed the inspection which was under the engineering section which was responsible for quantity control and arrangement of all the inspection services of G PIC plants

(1996 – 1998) Worked in the design office of Mitsubishi Heavy Industry in YOKOHAMA ,Japan with the engineering team reviewing the design of Urea plant project. Worked as chief engineer responsible for approval of the construction drawings and activities of constructing the GPIC Urea plant with the Project Team . The work covered checking and approving process .mechanical . and civil design drawings to produce reliable and safe designs and ensure protection of the environment. Worked in the project team to supervise the construction and inspection of constructing the new project.

1987 - 1990 Worked as Engineering System Analyst in the process engineering section responsible for monitoring the process operations parameters of the process and the utility plants .Worked in the operation department on operating the utility plants.

1980 -1986 Worked as a process engineer in the various development phases of GPIC complex covering the design , construction , commissioning , and operation of the Ammonia / Methanol/ and Utility plants . The work involved working with various international consulting and contracting companies . Worked with the petrochemical complex basic designer which was UHDE Germany and the Constructor which was Snamprogetti ,Italy .My responsibilities with the project team were to check the process design, operations procedures , construction drawings, follow up construction and commissioning of the plants.

2006-till Present: member of BSE toastmaster club where skills of presentations delivery , public speaking , and training and mentoring skills are practiced

TRAINING AND DEVELOPMENT PROGRAMS

- Attended several field training programs at Petrochemical plants in GCC countries and worldwide and worked with in consulting firms offices like Snamprogetti ,Italy , Mitsubishi , Japan and UHDE Germany. Also attended many conferences, seminars, and exhibitions, see attached list for details. Presented a number of papers in several conferences both in Bahrain and overseas on Environment , Plant operations , designs, and management concepts

MEMBERSHIP OF PROFESSIONAL BODIES

- Member of Bahrain Society of Engineers
- Held position of the treasurer in the Board of Directors of the Bahrain Society of Engineers for four years(2002-2006)
- Held the position of training director in the board of directors of the Bahrain Society of Engineers 2012-2013.
- Registered with the Bahrain “Committee for Organizing Engineering Professional Practice” (Category A).
- Held positions of president and treasurer of the Bahrain society of engineers toastmasters club for various terms

List of some of the courses and seminars attended by Mr Samih Alalawi

S/No	Course / Seminar Title	Institute Name
	Technical & Engineering Courses	
1	Hazard by Hazard & Operability Studies (HAZOP)	Safety Technology

2	Hazard & Operability Studies (HAZOP)	Lihou Loss Prevention Services
3	Chartering and Shipping	Saudi Basic Industries
4	Technical Management of Fertilizer Industries	Intl Fertilizer Development Center
5	Technologies for Refining	Haldor Topsoe
6	Arbitration in Construction Disputes	International Consultancy Center
7	Feasibility Studies- Project	
8	1 st European Plant Information Management	Docworld B.V.
9	Risk Assessment for Fertilizer Plants	Sedgwick Energy & Marine Ltd
10	Radiation Protection supervisor	NRBP
11	Montreal protocol conference	Institute of International Research
12	Corrosion & Material Selection	Nidi
13	Total Value Management	Project Management Institute
14	Risk Based Inspection	
	Environmental and Safety Courses	
15	Cleaner Production Workshop	Bahrain Society of Engineers
16	Environmental Systems	Det Norske Veritas
17	Renewable Energy Systems	
18	Hazardous Waste Management	National Environ. Preservation
19	Process Safety Management	EQE
20	Auxiliary Fireman Training	Meric
21	Safety for Senior Executives	
22	Behavioral Safety	The Royal Society for Prevention of Accidents (ROSPA)
	Management Courses	
23	Lateral Thinking	Ashrm
24	Leadership in Management	Leadership Trust
25	Leadership using Emotional Intelligence	BSTD
26	Time Management	Meric
27	Innovative Leadership	
28	Productivity for Profitability	Jaffari Consulting
29	Who Moved my Cheese Seminar	GPIC
30	Direct Attack Thinking	
31	Advanced Managerial Skills	
32	The Visionary Leader Practical Forum 2007	Event Management
33	Negotiation Skills	
34	Making of Modern Manager	University of Bahrain
35	Management Course for Newly appointed Manager	Middle East Management Center
	Management Systems	
36	Information Security Certified Auditors Course	British Standards Institute
37	Energizing Internal Auditors	British Standards Institute
38	Integrated Management Systems Internal Auditing (ISO 9001/14001/OHSAS 18001)	TUV
39	Product Stewardship	GPCA

40	Integrated Management Systems Consultancy	TUV
41	Business Continuity Management	Business Continuity Institute
42	ISO 9001 awareness Works	Summit Quality Associates
	Conferences and Exhibitions	
43	Petrotech Conferences and exhibitions	
44	Sabic Technical meetings	
45	Gas Processors Associations Seminars	
46	Middle East Corrosion Conferences	
47	Middle East Oil & Gas Exhibitions	
48	Quality assurance of education conference	National authority of quality and qualification of education and training
49	Entrepreneurship and new venture development program	UNIDO- 2012
